

**Graduating Student Survey  
Class of 2020**

Office of Institutional Research  
November 2020  
OIR 20-07

## **Graduating Student Survey Class of 2020**

The Graduating Student Survey was administered May-August 2020 to the class of 2020 via a Web link sent by email in the invitation to participate. It was launched a week before graduation, May 27, 2020. After several reminders, the survey closed the third week of August.

This report summarizes responses to questions on students' perceptions of their educational experiences at John Jay. There are questions on faculty and advising, personal and intellectual development, and current employment as well as future plans for employment or continuing education.

Administration of this survey preceded the availability of the names and contact information in the IRDB, this office's database. Therefore, we relied on the registrar's office to provide us with the list of students in the graduating class. Their list contained 4078 students: 277 certificate and advanced certificate recipients, 3129 bachelor's degree recipients, and 672 master's degree recipients. Those responding to the survey were 504 bachelor's degree recipients, and 152 master's degree recipients. Only two certificate degree recipients responded this time. However, those responses were not included in these results. Data for graduates from dual (BA/MA) degree programs were counted twice; once with the bachelor's degree graduates and once with master's degree graduates.

Table's 1 – 11 show graduating students' responses separately by degree earned.

### **Key Findings:**

- **Master's Degree Graduates:**
  - 73% of graduates report they completed a capstone experience. Among these graduates 38% report they completed a thesis or final paper.
  - 62% of graduates report they were accepted into a program for further study. Among these graduates, 38% report they were accepted into a doctoral degree program.
  - 9% of graduates applied to programs related to their major.
  - 81% of graduates highly rate their overall experience at John Jay, and also 85% would choose to attend it again.
  
- **Bachelor's Degree Graduates:**
  - 84% of graduates report they completed a capstone experience. Of these graduates, 48% report they completed a thesis or final paper.
  - 65% of graduates report they were accepted into a program for further study. Among these graduates, 72% report they were accepted into a master's degree program.
  - 22% of graduates applied to programs related to their major.
  - 89% of graduates highly rate their overall experience at John Jay, and 87% would choose to attend it again.

The class of 2020 reports a very high percent of overall satisfaction with their John Jay College experience, and state that they would 'definitely' or 'probably' choose to attend the college again in the future.
