How to Log into Your Accommodate Account

1. Log in to *Accommodate* through the link below:
<https://jjay-cuny-accommodate.symplicity.com/>

2. Choose *Faculty* as the type of user

3. Log in using your John Jay Email username@jjay.cuny.edu and Password

How Exam Requests are Processed

The students will initiate by submitting an *exam room booking request*. Instructors are responsible for four tasks:

1. Entering exam information at the beginning of each term or sooner if possible (This will save time for the student when submitting exam requests).
2. Checking pending exam requests for accuracy.
3. Approving/Denying pending exam requests
IMPORTANT: Instructors may use sympathy to deny exam bookings for reasons such as the student has not completed all prerequisites
4. Submitting/Delivering the respective exam for an exam request

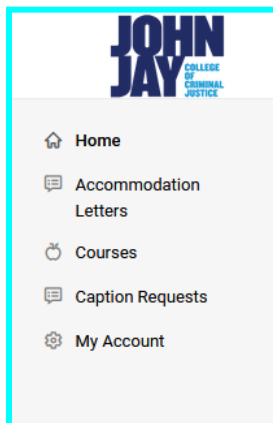

An exam request does not need to be submitted to create *Exams* (see [How to Add an Exam Without any Active Exam Requests](#)). When you edit the exam/exam information, the new information will be automatically updated and available in the exam requests where the exam was already connected. You will not have to go back and update it.

If you are planning to drop off the exam, please let our office know by emailing accessibilityservices@jjay.cuny.edu.

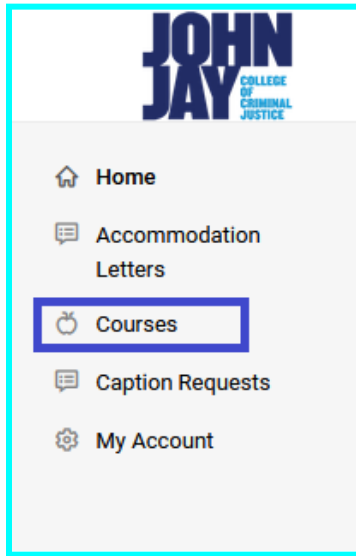

How to Approve/Deny Pending Exam Requests

You will receive an email notification when a student submits an exam request. Edit, approve, or deny the request as soon as possible so Accessibility Services can ensure the student receives their approved accommodations.

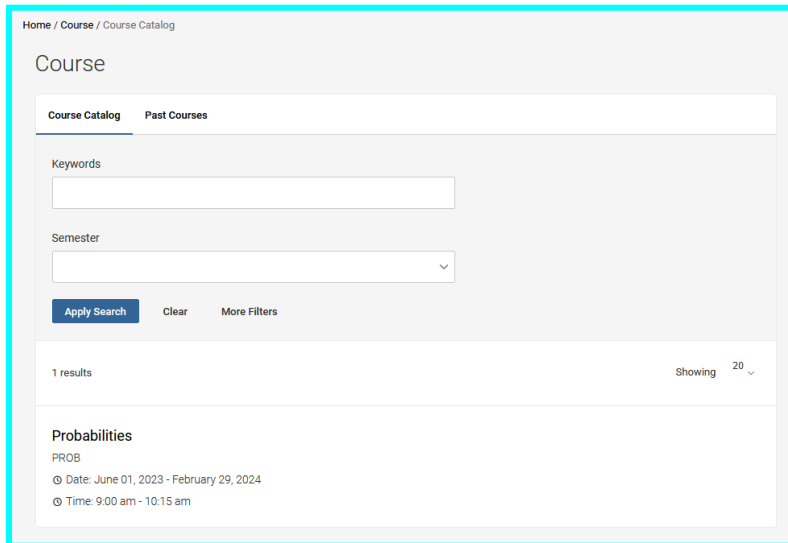

1. Log into your *Accommodate* account through the following link:
<https://jjay-cuny-accommodate.symplcity.com/>
2. You should see a menu on the left side of your home page.

3. Select the *Courses* link on the left menu

4. The *Course Catalog* should be visible

5. Scroll and select the **name of the course** relating to the exam request (information can be found in the notification email). Courses appear in alphabetical order and can be searched for by entering the course name in *Keywords* field and selecting apply.
